General Comments

This truck does not run at all. It needs multiple repairs. This truck appears to have been sitting here for sometime. I cant list anymore than I have because it does not run. Wire harness completely melted/ lp lock off melted. Vehicle had a fire. Let us know how to proceed with this. Electrical system unknown. This could possibly cost 2000.00-3000.00 to try to get it to running condition to see if there is further damage.
